SKILLS

- Surface Preparation: Expert in preparing walls, removing debris, and applying primary coats (Tarsheha).
- Internal & External Plastering: Skilled in applying smooth finishes for interiors and durable cement-based coats for exteriors.
- Leveling & Alignment: Precise use of levels, straightedges, and "Boaj & Awatar" techniques to ensure perfectly straight walls and 90-degree corners.
- Material Mixing: Knowledgeable in the correct ratios of cement, sand, and additives for various weather conditions and surfaces.
- Scaffolding Safety: Experienced in working at heights and following safety protocols on construction sites.
- Decorative Finishes: Ability to execute different textures and final touches according to architectural requirements.
- Physical Stamina: Ability to perform heavy physical labor and maintain high energy levels throughout the workday.
- Time Management: Proven track record of completing assigned areas within the project timeline.
- Attention to Detail: Ensuring zero cracks and a flawless finish that simplifies the painting process.
